[ON-SCREEN HEADLINE: COVID-Era Diary Entries of Dr. Anthony Fauci Released by Sen. Paul Ahead of Senate Hearing]

JULIETTE GOODRICH: Newly released diary entries by Dr. Anthony Fauci are shedding light on his soaring fame during the COVID epidemic. The documents, released by Republican Senator Rand Paul, including remarks about being invited to A-list parties, calls with Barbra Streisand, but also some uncertainty about the origin of COVID, contrary to his public statements. On Wednesday, Dr. Fauci will testify before a Senate panel on how the federal government responded to the COVID pandemic.
