[ON-SCREEN HEADLINE: Caught Our Eye; Dr. Fauci's Phone Obtained]

KELLY O'GRADY: We are going to begin with a GOP senator saying he obtained a copy of Dr. Anthony Fauci's phone. Now, this was first reported in *The Wall Street Journal*. Now, Fauci, remember, pled the Fifth over 100 times last month during a Senate hearing on his Covid response. Now, Senator Ron Johnson says he's got a copy of the phone Fauci used during the pandemic. Fauci has, of course, become a controversial figure, especially on the right. Fauci has not commented on these reports so far.

TOM COSTELLO: And on the eve of this big vote. The chairman of a separate congressional panel said he got a copy of Fauci's government-issued cell phone, which Fauci used during the pandemic. Senator Ron Johnson says he hopes it will help answer "the questions he refused to

answer at last week's hearing." But this beef goes way back and actually has more to do with this man on the left, right there, Senator Rand Paul, a doctor himself who's been spearheading the investigation into Fauci and the origins of Covid.
